

The Hillen Group

Web & Software Development • IT Services
info@thehillengroup.net • thehillengroup.net

Capabilities Statement

Strategic Solutions. Delivered.

Core Competencies

- Full-stack web apps (React, Node, APIs)
- Cloud architecture and DevOps (CI/CD, IaC)
- Data visualization and analytics dashboards
- Accessibility (Section 508/WCAG 2.2 AA)
- UX research, design systems, and rapid prototyping
- Secure engineering, performance and reliability

Differentiators

- Outcome-focused delivery with measurable KPIs
- Human-centered design paired with engineering rigor
- Lean teams, senior talent, and fast decision cycles
- Proven accessibility and security-by-default practices
- Modern CI/CD pipelines for frequent, safe releases

Past Performance (Selected)

- Research Insights Portal — public data publishing, dashboards, and reports
- Field Ops Mobile — offline capture with secure synchronization
- StonePro E-Commerce — storefront UX, search, and guided checkout

Industries

Federal health and civilian, defense, state and local, research, and commercial.

Tools & Technologies

React, Node.js, REST/GraphQL, PostgreSQL, AWS/Azure, Docker, Terraform, GitHub Actions, Jest/RTL, Cypress.
